

## **ONE-DAY TOUR: ENERGY OF ROGUN**

**Route:** Dushanbe – Rogun – Dushanbe

**Duration:** 1 day (08:30 – 17:30)

**Distance:** ~110 km one way

**Group size:** up to 10 people

**Activity level:** low

**Lunch:** included

**Meeting point:** Square near the Opera and Ballet Theatre, 08:15

## Tour Description

Step into the heart of Tajikistan's energy power — the city of **Rogun**, home to one of the **largest hydro-engineering projects in the world**.

The **Rogun Hydropower Plant (HPP)**, once completed, will become the **tallest dam on the planet (335 m)** and a key energy hub for all of Central Asia.

This tour is a unique opportunity to witness this grand construction project with your own eyes, enjoy the stunning landscapes of the **Vakhsh Valley**, and connect with local cultural and natural landmarks.

## Tour Program

**08:30** – Departure from Dushanbe

**10:30** – Arrival in Rogun. City sightseeing tour

**11:30** – Visit to the external observation deck of the Rogun HPP. Photo and video shooting opportunity

**13:00** – Lunch at a local restaurant

**15:30** – Short stop at the Central Museum of Rogun

**16:00** – Departure back to Dushanbe

**17:30** – Arrival in the capital, end of the tour

## What's Included in the Price

- Round-trip transport
- Guide services (Russian or English-speaking)
- Lunch
